EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Anthony Edwards on 06/23/05.

The application has been amended as follows:

In claim 1, line 11, after the word "midsection", the phrase -- wherein said wheel is adapted for use in log processors -- has been inserted.

In claim 12, line 14, after the word "axis", the phrase -- wherein said wheel is adapted for use in log processors -- has been inserted.

The following is an examiner's statement of reasons for allowance: The prior art Havimaki et al teaches a tubular midsection, and a pair of annular rings having spaced notches sized to receive locking engagement links of a chain segment; however, the prior art fails to teach "said drive wheel further comprising means mounted between said pair of annular rings for selectively forcing a part said pair of annular rings along a longitudinal axis of symmetry of said midsection".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bena Miller whose telephone number is 571.272.4427. The examiner can normally be reached on Monday-Friday.

The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
